

Leading With Wisdom

A Unique Journey for Visionaries

August 5 - 19
Ecuador Expedition

WHY THIS JOURNEY?

We're more creative, inspired and happy when we're immersed in the natural world. As we become further distanced from the environment, we're losing something incredibly valuable and essential to our existence. Indigenous tribes in ancient lands are a testament to this as their strong vision and legendary wisdom transcend our understanding of the world. Their connection with nature reveals the magic of human intuition...and it's under attack.

WHY NOW?

It's a historic moment. The Amazon – home to jaguars, pink dolphins, indigenous tribes and natural wonders of mythical proportions – is in jeopardy. Ecuador has the most biodiversity in the world; so much so that you can feel life breathing all around you. Today, Ecuador's forests and its inhabitants face a catastrophic destruction of close to 10 million acres of wild, intact, pristine rainforest in a massive land giveaway. We have the power to stop this impending agreement between the government and oil companies, and to forever preserve the

Amazon jungle – the “lungs” of our planet. Historic moments call for historic partnerships. **Amazon Watch** and **The Pachamama Alliance** are joining forces to design a one-of-a-kind experience that's equal parts impact expedition and transformational journey. These organizations have mobilized local indigenous leaders and the media to draw attention to this critical situation. We're truly at a crossroads and our delegation will be critical to forging a path forward and even influencing other governments and leaders throughout the world.

WHY YOU?

Your strategic expertise coupled with indigenous wisdom is the powerful combination needed to transform this imminent threat into a new possibility. By immersing yourself with native peoples and traditions, you'll build your intuitive and empathic abilities, which are key to evolving visionary leadership. Harness this unmatched opportunity to challenge yourself and explore your creative potential. Join business leaders, changemakers and influencers – like you – who have much to learn from and contribute to the Amazon.

EXPEDITION OVERVIEW

- One-of-a-kind, highly customized journey
- World's most pristine ecolodge
- Private plane flights into the Amazon
- Rituals and ceremonies with indigenous elders
- Exotic jungle exploration
- Scenic drives and hikes through the Andes
- Collaboration with local leaders
- Price: \$5475

BIG VISION

One of the few remaining intact paradises, the Amazon has still suffered destruction in the name of our global economic system. Bravely, indigenous leaders have turned to us as allies in their quest to protect and sustain life for all. Instead of perpetuating systems we know are destructive, we can support the system that's more efficient and majestic than anything human made - nature. From strategic conversations with high-level decision-makers to shamanic rituals, the diversity of our experience will only be matched by the landscape in this momentous voyage to influence the fate of the Amazon.

UNIQUE TAKEAWAYS

- An intimate experience with fellow influencers and leaders
- Cross-cultural immersion
- Participation in high-level strategy formulation
- Transformative, personal experience
- Exposure to key leaders in the region
- Opportunity to change the future of the Amazon and the Planet

ON THE GROUND

This unforgettable journey is the creation of two influential organizations: The Pachamama Alliance and Amazon Watch. While they've collaborated extensively in Amazonian communities, this will be the first time they team up for an expedition and their first visit to certain parts of the rainforest in more than 15 years.
